B) Rewrite the followig radio communication in the correct Standard form.	
Utopia clears the berth and proceeds down river. The pilot, on board Utopia, calls up his pilot station.	
Utopia: What is the quality and strength of the radio signal?	
Pilot Station: 5/1.	
Utopia: Channel 8.	
Pilot Station: Ok.	
Utopia: I am going to Avonport. I expect to arrive at 3 p.m. The maximum depth from water level to the	
vessel's bottom is 8.54 m. I have an inclination to port of 1 degree caused by strong wind.	
Pilot Station: Ok. The tide is flooding. Vessel Euphoria has taken the ground on purpose, 1 mile 180 degrees	
from Cardiff but she is not in the way of other vessels. I recommend that you sail at less than your normal	
speed.	
Utopia: I am going to do so.	
Utopia receives a weak transmission from vessel Gargantua and decides to rebroadcast it.	
Utopia: I need assistance. My position is 6 miles, 160 degrees from Cardiff. I am sinking.	
Coast Guard: Can you repeat her position?	
Utopia: 8 miles, 160 degrees from Cardiff, no, 6 miles.	
Coast Guard: I designate you as the command ship.	
Utopia: Ok.	
The Coast Guard warns the other vessels what is happening and asks them not to get close to that area.	
Coast Guard: …….	
C) Answer the following questions.	
1- In what ways can you refer to 'inland direction'?	
2- How is the line-throwing type called?	
3- How do you ask a vessel to protect you from the wind?	
4- What do you do if you deliberately break you anchor chain?	
5- How is the enclosed area of water, usually approached through a lock, maintaining the water at constant	
level called?	
6- What is the difference between 'let go fore and aft' and 'single up fore and aft'?	
7- What are the message markers used for?	
D) Translate the following weather forecast.	
Vientos moderados del noroeste cambiando a regulares a fuertes del norte. Parcialmente nublado a nublado. Probabilidad de lluvias hacia la tarde. Visibilidad buena a regular.	

A) Put the labels.

1- Forward tug
2-Forward towing line
3- Head line
4- Mooing boat
5- Forward breast line
6- Capstan
7- Forward spring
8- Buoy line
9- Mooring buoy
10- Aft towing line
11- Fairlead
12- Bitt
13- Aft spring
14- Aft breast line
15- Fender
16- Stern line
17- Linesman
18- Bollard

B) Rewrite the following radio communication in the correct Standard form.

Utopia clears the berth and proceeds down river. The pilot, on board Utopia, calls up his pilot station.

Pilot Station, Pilot Station, Pilot Station. This is Utopia, Utopia, Utopia. Over.
Utopia, Utopia, Utopia. This is Pilot Station, Pilot Station, Pilot Station. Over.
Pilot Station. This is Utopia. Question. How do you read me? Over.
Utopia. This is Pilot Station. Answer. I read you excellent with signal strength one. Over.
Pilot Station. This is Utopia. Request. Change to channel eight. Over.
Utopia. This is Pilot Station. Intention. I will change to channel eight. Over.
Pilot Station. This is Utopia. Information. My destination is Avonport. My ETA is one five zero zero / 1-5-0-0 hours, local time / UTC. My draught is eight decimal five four / 8 decimal 5-4 metres. I have a heel to port of one degree. Over.
Utopia. This is Pilot Station. Information. Message understood. The tide is rising. Vessel Euphoria has beached in position one eight zero / 1-8-0 degrees, one mile from Cardiff. She is not obstructing other traffic. Advice. Advise you proceed at reduced speed. Over.
Pilot Station. This is Utopia. Intention. I will proceed at reduced speed. Over and out.

Utopia receives a weak transmission from vessel Gargantua and decides to rebroadcast it.

Mayday relay, Mayday relay, Mayday relay. This is Utopia. Following received from vessel Gargantua. I am sinking. My position is one six zero / 1-6-0 degrees, six miles from Cardiff. I require assistance. Over.
Utopia, Utopia, Utopia. This is Coast Guard Radio, Coast Guard Radio, Coast Guard Radio. Over.
Coast Guard Radio, Coast Guard Radio, Coast Guard Radio. This is Utopia, Utopia, Utopia. Over.
Utopia. This is Coast Guard Radio. Question. What is the position of the vessel in distress? Instruction. Say again. Over.
Coast Guard Radio. This is Utopia. Answer. The position of the vessel in distress is one six zero / 1-6-0 degrees, eight miles. Mistake. Correction. Six miles, repeat, six

miles from Cardiff. Over.
Utopia. This is Coast Guard Radio. Instruction. Take command of search and rescue operations. Over.
Coast Guard Radio. This is Utopia. Intention. I will take command of search and rescue operations. Over and out.

The Coast Guard warns the other vessels what is happening and asks them not to get close to that area.

Attention, Attention, Attention all vessels. Vessel Gargantua is sinking in position one six zero / 1-6-0 degrees, six miles from Cardiff. Vessel Utopia is in command of search and rescue operations. Stand clear of the area. Over.

C) Answer the following questions.

1- Upstream, inwards, inbound, ingoing.
2- Rocket.
3- Make a lee for me.
4- I slip anchor.
5- Dock.
6- Let go fore and aft means to cast off all lines. Single up fore and aft means to pull on board one of each line.
7- The message markers are used to anticipate the listener the type of message he / she is going to receive.

D) Translate the following weather forecast.

Moderate breeze from northwest changing to fresh to strong breeze from north. Partly cloudy to cloudy. Possible rain towards the afternoon. Good to moderate visibility.
