A- Give the messages required.

1) The pilot station knows that you are anchored to six shackles of cable, and requires that you should have only two shackles remaining in the water. What order will the pilot station give?

2) You are in charge of Utopia forward station. You are in your anchor position, and will be using starboard anchor. What order does the pilot give?

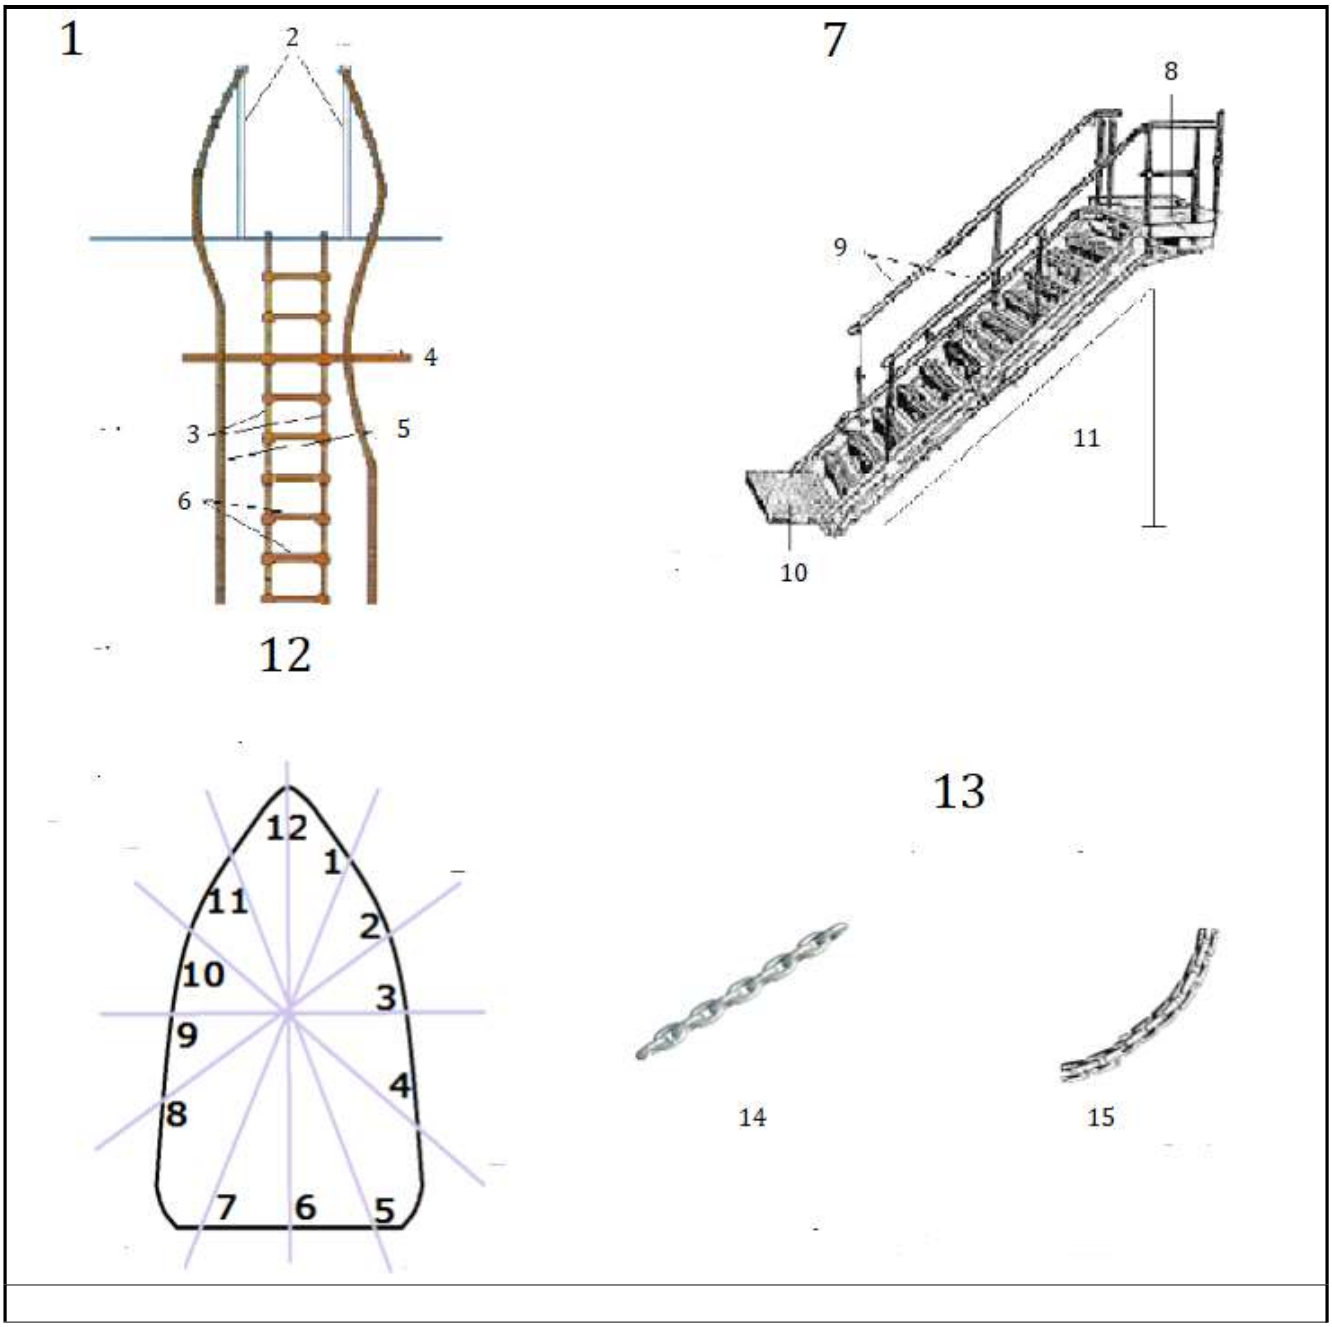

3) Another ship breaks loose in a gale, and you are forced to abandon your anchor and chain on the harbour bottom. What do you say to the pilot station?

4) What do you say if your anchor is caught under a rock?

5) The helicopter wants to know if it is possible for her to land. What does she ask the ship?

B- Dialogue

- Newharbour retransmits a Mayday.
- You don't understand her position so you ask Newharbour to repeat it.
- Newharbour does it and asks you to be the command vessel.
- Say you will.
- You call the vessel in distress.
- She answers.
- You don't hear clearly so you ask her to switch another channel.
- She answers in a non-standard language.
- You ask her to correct that.
- Say you are on your way to her.
- She asks for a rescue boat and to be protected from the wind.
- Answer.
