NO HAY FINALES DE NOV 2020 Y FEB 2021 (PANDEMIA)

FINAL NOV 2018 RESUELTO

A) Translate the following weather forecast.

Vientos fuertes a muy fuertes del oeste cambiando a temporal del noroeste. Parcialmente nublado a nublado. Probabilidad de nevadas hacia la tarde. Visibilidad mala.

B) Answer the following questions.

1- In what ways can you refer to 'seaward direction'?

2- How do you say to a vessel that you will protect her from the wind?

3- What is the difference between 'dragging anchor' and 'dredging anchor'?

4- What are the message markers used for?

5- How is the anchor when it has its own cable twisted around it?

6- How is the berth carrying pipe-lines, found 20 miles from shore or more, called?

7- What are the different inclinations of a vessel?

C) Rewrite the following radio communication in the correct Standard way.

Vessel Utopia is getting ready to sail from Cardiff.

Captain: Heave in one head line, one breast line and one spring.

First Officer: Ok.

Captain: Heave in stern lines, breast lines and springs.

Second Officer: Ok.

Captain: Heave in the rest of the lines.

First Officer: Ok.

Second Officer: Done.

First Officer: Done.

Utopia clears the berth and proceeds down river. The pilot, on board Utopia, calls up the Coast Guard.

Utopia: I am not at anchor or aground or made fast to the shore and moving through the water. Coast

Guard: Vessel Euphoria is being refloated in position south side of the fairway.

Utopia: May I proceed?

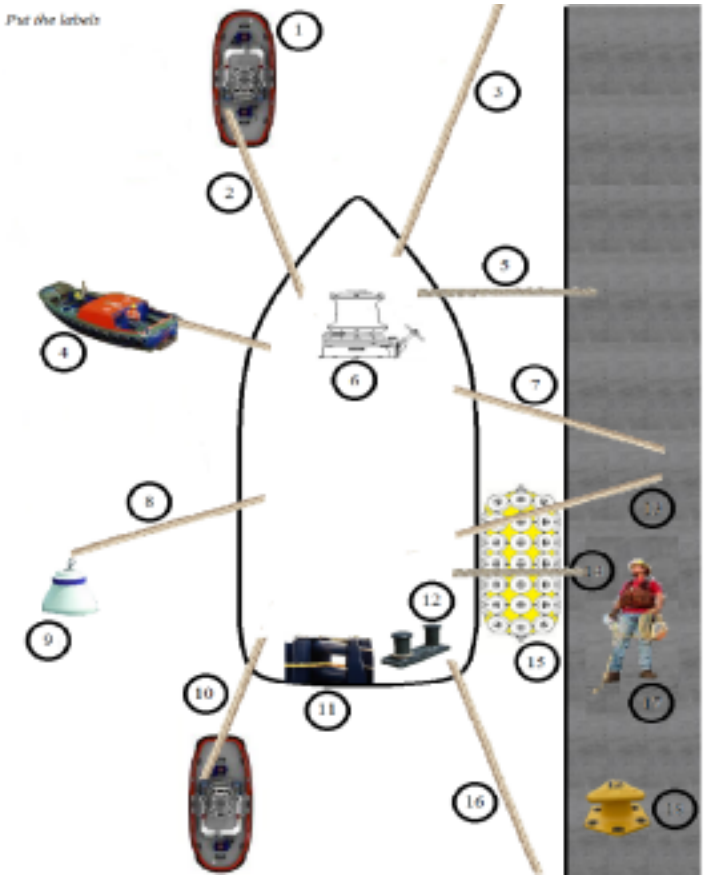

Coast Guard: Stay clear of the navigable part of the waterway.

Utopia: I am going to wait until she is afloat again.

Coast Guard: wait on channel 12.

Utopia: Do you need any help?

Euphoria: No, thank you.

A)*Strong breeze to near gale from west changing to gale from north west. Partly cloudy to cloudy. Possible snowfall towards the afternoon. Poor visibility.*

B) 1- Downstream, outwards, outbound, outgoing.

2- I will make a lee for you.

3- Dragging anchor means to move the anchor over the sea bottom involuntarily. Dredging anchor means to move the anchor over the sea bottom voluntarily.

4- The message markers are used to anticipate the listener the type of message he / she is going to receive.

5- Foul.

6- Single buoy mooring (SBM).

7- Loll, list, heel.

C) Utopia Forward Station. This is Utopia Bridge. Single up forward. Over.

Utopia Bridge. This is Utopia Forward Station. I will single up forward. Over.

Utopia Aft Station. This is Utopia Bridge. Let go aft. Over.

Utopia Bridge. This is Utopia Aft Station. I will let go aft. Over.

Utopia Forward Station. This is Utopia Bridge. Let go all lines. Over.

Utopia Bridge. This is Utopia Forward Station. I will let go all lines. Over.

Utopia Bridge. This is Utopia Aft Station. I am let go aft. Over.

Utopia Bridge. This is Utopia Forward Station. I am let go forward. Over.

Utopia clears the berth and proceeds down river. The pilot, on board Utopia, calls up the Coast Guard.

Coast Guard Radio (x3). This is Utopia (x3). Over.

Utopia (x3). This is Coast Guard Radio (x3). Over.

Coast Guard Radio. This is Utopia. Information. I am making way. Over.

Utopia. This is Coast Guard Radio. Information. There are salvage operations for vessel Euphoria in position south side of the fairway. Over.

Coast Guard Radio. This is Utopia. Question. Do I have permission to proceed? Over.

Utopia. This is Coast Guard Radio. Answer. No, you do not have permission to proceed. Instruction. Stand clear of the fairway. Over.

Coast Guard Radio. This is Utopia. Intention. I will stand clear of the fairway. I will wait for Euphoria to clear. Over.

Utopia. This is Coast Guard Radio. Instruction. Stand by on channel one two / 1-2. Over.

Euphoria (x3). This is Utopia (x3). Over.

Utopia (x3) This is Euphoria (x3). Over.

Euphoria. This is Utopia. Question. Do you require assistance? Over.

Utopia. This is Euphoria. Answer. No, I do not require assistance / No, your assistance is not required. Over.

Utopia. This is Coast Guard Radio. Information. The fairway is clear. You have permision to preceed. Over.

Coast Guard Radio. This is Utopia. Intention. I will get underway. Over and out.

D) 1- Length overall. 2- Breadth. 3- Midships. 4- Centreline. 5- Head. 6- Stern. 7- Starboard bow. 8- Port quarter. 9- Depth. 10- Freeboard. 11- Draught.12- Underkeel clearance.13- Air draught. 14- Height.15- Underbridge clearance.

FINAL FEB 2019

Give the following messages. Do not open any communication. You speak for Utopia.

1) You are asked not to move voluntary the anchor over the sea bottom.

Utopia. This is Port Control. Instruction. Do not dredge.

2) Say that you are not aground, or made fast to the shore or at anchor and moving with the help of

tugs. *Port Control. This is Utopia. Information. I am making way. Over*

3) Say that you intend to start navigation

Port Control. This is Utopia. Intention. I will get underway. Over

4) Say that you are on fire

MayDay, MayDay, MayDay. This is Utopia. I am on fire in position 0-0 degrees 0-0 minutes North, 0-0-0 degrees 0-0 minutes West. Over

5) You are told to make the ship fast to the shore at the south Stone-built structure at which you can lie alongside, with public Access.

Utopia. This is Port Control. Instruction. Make fast at South quay. Over

6) Ask for the way you are Heard answer: 2/3 ask to use another radio frequency

Utopia. This is Leon. Question. How do you read me? Over

Leon. This is Utopia. I read you poor with signal strength 3. Over
Utopia. This is Leon. Information. Message Understood. Request. Change to channel 9. Over

Leon. This is Utopia. Information. Message Understood. Intention. I will Change to channel 9.

Over 7) Alert that a vessel is sinking.

Attention, Attention, Attention All Vessels. This is Utopia. Vessel Gargantua is sinking in position 0-0 degrees 0-0 minutes North, 0-0-0 degrees 0-0 minutes West. Over

8) You are asked to keep course and speed.

Utopia. This is Port Control. Instruction. Stand on. Over

9) Ask if you are allowed to enter the navigable part of the fairway

Newharbour Radio. This is Utopia. Question. It is clear for me to enter the fairway?. Over

10) Say that one of your crewmembers has fallen into the water.

Pan Pan, Pan Pan, Pan Pan. This is Utopia. I have lost a person overboard in position 0-0 degrees 0-0 minutes North,

0-0-0 degrees 0-0 minutes West. I required a Helicopter with a doctor and search and rescue Operation. Over 11)

You are asked to reduce the length of you anchor chain.

Utopia. This is Port Control. Instruction. Shorten your cable to 3 shackles. Over

12) Ask to pullo n board all aft lines except one- say you intend to do it. say it is done.

Utopia Aft Station. This is Utopia Bridge. Single up Aft to one stern line. Over.

Utopia Bridge. This is Utopia Aft Station. I will Single up Aft to one stern line. Over.

Utopia Bridge. This is Utopia Aft Station. I am Singled up Aft to one stern line. Over.

13) Say that you expect to leave the port at 6 pm.

Port Control. This is Utopia. Information. My ETD is 1-8-0-0 hours local time. Over.

14) You are told that there is a drifting mine

Utopia. This is Port Control. Information. There is a drifting mine in position 0-0 degrees 0-0 minutes North, 0-0-0 degrees 0- 0 minutes West. Over.

15) Say that you have deliberately broken the anchor chain

Port Control. This is Utopia. Information. I have slipped my anchor in position 0-0 degrees 0-0 minutes South, 0-0-0 degrees 0-0 minutes East. Over

16) Say that you are restricted in your ability to moneuvre by the nature of your work

Gargantua. This is Utopia. Information. I am a Hampered vessel. Over.

17) Recommend a course to steer.

Gargantua. This is Utopia. Advice. Advise you course 3-0-0 degrees. Over

18) You are told that the tide is flooding

Utopia. This is Port Control. Information. The tide is rising. Over

19) Give your direction and position in relation to the river mouth.

Port Control. This is Utopia. Information. I am proceeding upstream and i am upstream from the river mouth. Over

20) Say that you have an inclination which can cause you to capsize

Port Control. This is Utopia. Information. I have a loll to port of 1-0 degrees. Over

21) You are told that the pilot boat is on her way to you

Utopia. This is Pilot Station. Information. The pilot boat is going to you. Over

22) You are asked to put both ladders on the sheltered side of the ship

Utopia. This is Pilot Boat. Request. Rig the pilot ladder with the accommodation ladder on lee side

Over 23) Ask another vessel to pass up your port side

Utopia. This is Gargantua. Overtake me for my port side. Over

24) You are asked not to approach a vessel.

Utopia. This is Gargantua. Request. Stand clear. Over

25) Say that you do not understand if she speaks in Chinese.

Gargantua. This is Utopia. Information. Message not understood. Request. Use the Standard Marin

Communication Phrases. Over

26 ay your distance fro water e e to the shi s botto you are tri ed by the head

Port Control. This is Utopia. Information. My draught is 1-0 meters decimal 2. I am trimmed by the head.

Over 27) You are given a place to anchor

Utopia. This is Port Control. Instruction. Anchor in position 0-0 degrees 0-0 minutes South, 0-0-0 degrees 0-0

minutes West. Over

FINAL NOV 2019

Imagine you are on board Utopia in charge of all communications. Open them when necessary and answer even when it is not asked. Utopia is made fast to the shore with a mooring scheme of 4-2-3 forward and aft and has three shackles in the water of the starboard chain. She is about to leave Dixieville harbour.

1) You ask the Port Control for permission to initiate navigation.
2) The Port Control allows you to proceed.
3) He wants to know if the anchor chain is leading at 2 o'clock and the way it is working.
4) He wants the 1st officer to pull on board the lines leading at right angles to the centreline from the head to the shore and the ones leading aft.
5) He wants the 2nd officer to haul on board all the lines except the ones leading aft from the stern to the shore.
6) The Captain wants the boatswain to clutch the windlass and to reduce the length of the chain to one shackle.
7) He wants to cast off all lines at the head and the stern.
8) He wants to pick up the anchor until it is stowed in position in the hawsepipe.
9) The manoeuvring stations inform the lines are on board.
10) You tell the Port Control that you are not anchored, or made fast to the shore, or aground, your destination, that your depth under the waterline is deeper forward and that you intend to start navigation.
11) The Port Control gives you the weather forecast (variations in wind, sky, precipitation, visibility) and tells you that a vessel is sailing towards the river mouth.
12) You ask the Port Control if there are any obstructions for you to enter the navigable part of the waterway. 13)

The Port Control says there aren't.

You proceed towards the river mouth and the vessel proceeding in the same direction sends a distress message.

14) She says that a man has fallen to the water and expresses her necessity of a helicopter with doctor and of assistance to look for the man.

15) The Coast Guard Radio asks you to be the command ship.

16) You say that you intend to do so.

17) You hear when the naval helicopter asks the other vessel for identification (how), for the place over which it is safe for her to hover and for the wind.

18) You ask the vessel the way she receives my message.

FINAL FEB 2022

1) You are asked not to move voluntarily the anchor over the sea bottom.
2) Say that you are not aground, or made fast to the shore or at anchor and moving with the help of tugs.
3) Say that you intend to start navigation.
4) Alert that you are on fire
5) You are told to make the ship fast to the shore at the south stone-built structure at which you can lie alongside, with public access.
6) a. Ask for the way you are heard. b. Answer 2/3. c. Ask to use another radio frequency.
7) Alert that a vessels is siking.
8) You are asked to keep course and speed.
9) Ask if you are allowed to enter the navigable part of the fairway.
10) Alert that one of your crewmembers has fallen into the water.
11) You are asked to reduce the length of you anchor chain.
12) a. Ask to pull on board all forward lines except one. b. say you intend to do it. c. Say it is done.
13) Say that you expect to arrive to the next port at 6 pm.
14) You are told that there is a drifting mine.
15) Say that you have deliberately broken the anchor chain.
16) Say that you are restricted in your ability to manoeuvre by the nature of your work.
17) Recommend a course to steer.
18) You are told that the tide is ebbing.
19) Give your direction and position in relation to the river mouth.
20) Say that you have an inclination which can cause you to capsize
21) You are told that the pilot boat is on her way to you.
22) You are asked to put both ladders on the sheltered side of the ship.
23) Ask another vessel to pass up your port side.
24) You are asked not to approach a vessel.
25) Say that you do not understand if she speaks in Chinese.

26) ay your distance fro water e e to the shi 's botto . You are trimmed by the head)
27) You are given a place to anchor.
28) You are told that the help is not accessible.
29) You are asked to slow down. Confirm if you have to do it.
30) You are asked for a place to hover
31) Say that a vessel is not obeying traffic regulations.
32) Say that you have minimum speed to steer safely
33) Ask if it is possible for you to be part of the group of ships travelling together
34) You are asked where your ship is from
35) Correct your current wrong course from 125 to 135
36) Say you have four dead people
37) Say you are in the designated area between the landward boundary of a traffic separation and the adjacent coast
38) You are told that several vessels are proceeding across
39) You are told a situation report
40) Alert that you have an accidental escape of noxious cargo.

3ER INSTANCIA 2021 (ABRIL 2022)

Vessel Utopia is getting ready to sail from Cardiff. (Mooring Scheme 3 by 2 forward and aft.)

Captain: Heave in two head lines and one spring.

First Officer: Ok.

Captain: Heave in stern lines and springs.

Second Officer: Ok.

Captain: Heave in the rest of the lines.

First Officer: Ok.

Second Officer: Done.

First Officer: Done.

Utopia Forward Station. This is Utopia Bridge. Single up forward. Over.

Utopia Bridge. This is Utopia Forward Station. I will single up forward. Over.

Utopia Aft Station. This is Utopia Bridge. Let go aft. Over.

Utopia Bridge. This is Utopia Aft Station. I will let go aft. Over.

Utopia Forward Station. This is Utopia Bridge. Let go forward. Over.

Utopia Bridge. This is Utopia Forward Station. I will let go forward. Over.

Utopia Bridge. This is Utopia Aft Station. I am let go aft. Over.

Utopia Bridge. This is Utopia Forward Station. I am let go forward. Over.

Utopia clears the berth and proceeds down river. The pilot, on board Utopia, calls up his pilot station.

Utopia: What is the quality and strength of the radio signal?

Pilot Station: 2/1.
Utopia: Channel 8.

Pilot Station: Ok.

Utopia: I am going to Avonport. I expect to arrive at 3 p.m. The maximum depth from water level to the esse 's botto is 8.54 m. I have an inclination to port of 1 degree caused by strong wind.

Pilot Station: Ok. The tide is flooding. Vessel Euphoria has taken the ground on purpose, 1 mile 180 degrees closer to the river mouth than Cardiff but she is not in the way of other vessels. I recommend that you sail at less than your normal speed.

Utopia: I am going to do so.

Pilot Station (x3). This is Utopia (x3) Over.

Utopia (x3). This is Pilot Station (x3). Over.

Pilot Station. This is Utopia. Question. How do you read me? Over.

Utopia. This is Pilot Station. Answer. I read you poor with signal strength 1. Over.

Pilot Station. This is Utopia. Request. Change to channel 8. Over.

Utopia. This is Pilot Station. Intention. I will change to channel 8. Over.

Pilot Station. This is Utopia. Information. My destination is Avonport. My ETA is 1-5-0-0 hours, local time. My draught is 8 decimal 5-4 metres. I have a heel to port of 1 degree. Over.

Utopia. This is Pilot Station. Information. Message understood. The tide is rising. Vessel Euphoria has beached in position 1-8-0 degrees, 1 mile downstream from Cardiff. She is not obstructing other traffic. Advice. Advise you make way at steerage way. Over and out.

Pilot Station. This is Utopia. Intention. I will proceed at steerage way. Over and out.

The pilot calls up the Coast Guard.

Utopia: I am not at anchor or aground or made fast to the shore and moving through the water.

Coast Guard: Vessel Euphoria is being set afloat in position south side of the fairway.

Utopia: May I proceed?

Coast Guard: Stay clear of the navigable part of the waterway.

Utopia: I am going to wait until she is afloat again.

Coast Guard: wait on channel 12.

Utopia: I am going to do so.

Coast Guard Radio (x3). This is Utopia (x3). Over.

Utopia (x3). This is Coast Guard Radio (x3). Over.

Coast Guard Radio. This is Utopia. Information. I am making way. Over.

Utopia. This is Coast Guard Radio. Information. Vessel Euphoria is being refloated in position south side of the fairway. Over.

Coast Guard Radio. This is Utopia. Question. Do I have permission to proceed? Over.

Utopia. This is Coast Guard Radio. Instruction. Stand clear of the fairway. Over.

Coast Guard Radio. This is Utopia. Intention. I will stand clear of the fairway until she is underway. Over.

Utopia. This is Coast Guard Radio. Instruction. Stand by on channel 1-2. Over.

Coast Guard Radio. This is Utopia. Intention. I will stand by on channel 1-2. Over.

The pilot calls up vessel Euphoria.

Utopia: Do you need any help?

Euphoria: No, thank you.

Euphoria (x3). This is Utopia (x3). Over.

Utopia (x3). This is Euphoria (x3). Over.

Euphoria. This is Utopia. Question. Do you require assistance? Over.

Utopia. This is Euphoria. Answer. No, your assistance is not required. Over and out.

Utopia receives a weak transmission from vessel Gargantua and decides to rebroadcast it.

Utopia: I need assistance. My position is 6 miles, 160 degrees from Cardiff. I am sinking.

Coast Guard: Can you repeat her position?

Utopia: 8 miles, 160 degrees from Cardiff, no, 6 miles.

Coast Guard: I designate you as the command ship.

Utopia: Ok.

Mayday Relay, Mayday Relay, Mayday Relay. This is Utopia. Following received from vessel Gargantua. I am sinking. My position is 1-6-0 degrees, 6 miles from Cardiff. Over.

Utopia. This is Coast Guard Radio. What is the position of the vessel in distress? Instruction. Say again. Over.

Coast Guard Radio. This is Utopia. Answer. The position of the vessel in distress is 1-6-0 degrees, 8 miles from Cardiff. Mistake. Correction. 6 miles, repeat, 6 miles from Cardiff. Over.

Utopia. This is Coast Guard Radio. Instruction. Take command of search and rescue operations. Over.

Coast Guard Radio. This is Utopia. Intention. I will take command of search and rescue operations. Over.

The Coast Guard warns the other vessels what is happening and asks them not to get close to that area.

Coast Guard: ……..

Attention, Attention, Attention all vessels. This is Coast Guard Radio. Vessel Gargantua is sinking in position 1-6-0 degrees, 6 miles from Cardiff. Stand clear of the area. Over.

The pilot calls up vessel Gargantua.

Utopia: I am going to help you.

Gargantua: Thanks.

Utopia: Are there any people overboard? And any dead people?

Gargantua: 3 overboard. 2 dead people but I have asked for a helicopter for them.

Utopia: I am going to recover the ones in the water.

Gargantua: Ok. I also need a doctor for hurt people.

Utopia: He is just going.

Gargantua (x3) This is Utopia (x3). Over.
Utopia (x3). This is Gargantua (x3). Over.

Gargantua. This is Utopia. Information. I am coming to your assistance. Over.

Utopia. This is Gargantua. Information. Message understood. Over.

Gargantua. This is Utopia. Question. Have you lost persons overboard? Do you have casualties? Over.

Utopia. This is Gargantua. Answer. Yes, I have lost 3 persons overboard. Yes, I have 2 casualties. Information. I have required a helicopter for casualties. Over.

Gargantua. This is Utopia. Intention. I will rescue the lost persons/persons overboard. Over.

Utopia. This is Gargantua. Information. Message understood. Request. I require medical assistance for injured persons. Over.

Gargantua. This is Utopia. Information. I am sending a doctor to you. Over.

FINAL NOV 2022

Imagine you are on board Utopia in charge of all communications. Open them when necessary and answer them even if it is not asked to. Utopia is made fast to the shore with a mooring scheme of 4-2-3 forward and 3-2-3 aft and has six shackles in the water of the left chain. She is about to leave Newharbour.

The Pilot is on board.

1) You ask for permission to initiate navigation.

2 The Pi ot wants to know if the anchor chain is ca ing at 10 o'c ock and the way it is working.

3) He wants the 1st Officer to haul on board all the lines except the ones leading aft.

4) He wants the 2nd Officer to leave a mooring scheme of 1-1-1.

5) He wants the boatswain to engage the windlass and to reduce the length of the chain to three shackles.

6) He wants the 1st Officer to bring the towing lines to the mechanical barrel and to take them the bitts.

7) He wants both stations to cast off all lines.

8) He wants the boatswain to pick up the anchor until it is in the hawsepipe.

9) You say you are not at anchor, or aground, or made fast to the shore, your destination, your depth under the waterline is deeper aft, that you intend to start navigation and ask if there are any obstructions to enter the navigable part of the waterway.

You proceed towards the river mouth.

10) The Pilot wants the 1st Officer to pull on board the towing lines.

11) He wants the boatswain to prepare the combination ladder.

12) The Pilot Boat wants you to give her shelter from the wind and to keep course and speed.

The Pilot disembarks and the vessel proceeding in the same direction sends a weak distress message. 13) The Coast Guard rebroadcasts it.

14) You want to know the position of that vessel.

15) The Coast Guard repeats it, makes a mistake but corrects it.

16) You want to know if she is in the way of other traffic.

17) As she is, the Coast Guard gives you a place to anchor.
18) The Coast Guard says that no ships can move in the area.

After salvage operations, you resume navigation.

19) The Coast Guard sends a situation report (a sudden increase in wind force, a vessel restricted in her ability to manoeuvre, a buoy not in charted position, a vessel not obeying traffic regulations, poor visibility, a wreck buoy).

20) You tell the Coast Guard that your radar is not working and give your possible position.

21) The Coast Guard asks you to make a bold alteration of course.

22) The Coast Guard says you have been located and that you are going to meet several vessels proceeding across the fairway at Gannet Head.

23) You tell the Coast Guard that you will continue at less than your normal speed.

1) Newharbour Port Control (x3). This is Utopia (x3). Over.

Utopia (x3). This is Newharbour Port Control (x3). Over.

Newharbour Port Control. This is Utopia. Question. Do I have permission to get underway? Over. Utopia. This is Newharbour Port Control. Answer. Yes, you have permission to get underway. Over. 2) Utopia Forward Station. This is Utopia Bridge. Is the cable leading before the port beam? How is the cable growing? Over.

Utopia Bridge. This is Utopia Forward Station. Yes, the cable is leading before the port beam. The cable is growing tight/slack. Over.

3) Utopia Forward Station. This is Utopia Bridge. Single up forward to forward springs. Over.

Utopia Bridge. This is Utopia Forward Station. I will single up forward to forward springs. Over.

4) Utopia Aft Station. This is Utopia Bridge. Single up aft. Over.

Utopia Bridge. This is Utopia Aft Station. I will single up aft. Over.

Utopia Bridge. This is Utopia Forward Station. I am singled up forward. Over.

Utopia Bridge. This is Utopia Aft Station. I am singled up aft. Over.

5) Utopia Forward Station. This is Utopia Bridge. Put the windlass in gear. Shorten your cable to three shackles. Over.

Utopia Bridge. This is Utopia Forward Station. I will shorten my cable to three shackles. Over.

6) Utopia Forward Station. This is Utopia Bridge. Take tug's forward towing lines to capstan and make fast. Over.

Utopia Bridge. This is Utopia Forward Station. I will make tug fast. Over.

7) Utopia Forward Station. Utopia Aft Station. This is Utopia Bridge. Let go fore and aft. Over.

Utopia Bridge. This is Utopia Forward Station. I will let go forward. Over.

Utopia Bridge. This is Utopia Aft Station. I will let go aft. Over.

8) Utopia Forward Station. This is Utopia Bridge. Heave up anchor until it is home. Over.

Utopia Bridge. This is Utopia Forward Station. I will heave up anchor until it is home. Over.

Utopia Bridge. This is Utopia Forward Station. I am let go forward. Over.

Utopia Bridge. This is Utopia Aft Station. I am let go aft. The anchor is home. Over.

9) Newharbour Port Control. This is Utopia. Information. I am underway. My destination is XX. I am trimmed by the stern. Intention. I will get underway. Question. Is the fairway clear? Over.
Utopia. This is Newharbour Port Control. Answer. Yes, the fairway is clear. Over.

10) Utopia Forward Station. This is Utopia Bridge. Heave in the towing lines. Over.

Utopia Bridge. This is Utopia Forward Station. I will heave in the towing lines. Over.

11) Utopia Forward Station. This is Utopia Bridge. Rig the accommodation ladder in combination with the pilot ladder. Over.

Utopia Bridge. This is Utopia Forward Station. I will rig the accommodation ladder in combination with the pilot ladder. Over.

12) Utopia (x3) This is Pilot Boat (x3). Over.

Pilot Boat (x3). This is Utopia (x3). Over.

Utopia. This is Pilot Boat. Request. Make a lee for me. Stand on. Over.

Pilot Boat. This is Utopia. Intention. I will make a lee for you. I will stand on. Over.

13) Mayday Relay, Mayday Relay, Mayday Relay. This is Coast Guard Radio. Following received from vessel YY. I am on fire/sinking. My position is ### degrees, 2 cables from ZZ. I need help. Over.

14) Coast Guard Radio (x3) This is Utopia (x3) Over.

Utopia (x3). This is Coast Guard Radio (x3). Over.

Coast Guard Radio. This is Utopia. Question. What is the position of vessel YY? Request. Say again. Over.

15) Utopia. This is Coast Guard Radio. Answer. Her position is ### degrees, 3 cables from ZZ. Mistake. Correction. ### degrees, 2. repeat, 2 cables from ZZ. Over.

16) Coast Guard Radio. This is Utopia. Information. Message understood. Question. Is she obstructing other traffic? Over.

17) Utopia. This is Coast Guard Radio. Answer. Yes, she is obstructing other traffic. Information. Anchoring position ### degrees, # miles from ZZ has been allocated to you. Over.

Coast Guard Radio. This is Utopia. Intention. I will anchor in position ### degrees, # miles from ZZ. Over.

18) Attention, Attention, Attention all vessels. This is Coast Guard Radio. Navigation is closed in area one mile upstream, one mile downstrean from ZZ. Over

19) Attention, Attention, Attention all vessels. This is Coast Guard Radio. Situation Report follows on channel ##. Over.

Attention, Attention, Attention all vessels. This is Coast Guard Radio. Situation Report. Part One: There is a hampered vessel in position ## degrees ## minutes south, ## degrees ## minutes west. There is a vessel in position ## degrees ## minutes south, ## degrees ## minutes west which is not complying with traffic regulations. Part Two: There is a squall in area ....

Visibility is one mile. Part Three: Buoy in position … is off-station. There is an isolated danger buoy in position ….Over.

20) Coast Guard Radio. This is Utopia. Information. My radar is inoperative.

My estimated position is …. Over.

21) Utopia. This is Coast Guard Radio. Instruction. Alter course for identification. Over.

Coast Guard Radio. This is Utopia. Intention. I will alter course for identification. Over.

22) Utopia. This is Coast Guard Radio. I have located you in position …. Warning. You will meet crossing traffic at Gannet Head. Over.

23) Coast Guard Radio. This is Utopia. Information. Message understood. Intention. I will proceed at reduced speed. Over.

FINAL FEB 2023

1. There are strong wave trains encountered beyond the region in which they are generated.
2. The complex of measures concerning routes aimed at reducing the risk of accidents will change at 12 a.m. on February 15th. (It includes traffic separation schemes, two-way routes, tracks, areas to be avoided. inshore traffic zones and deep-water routes.)
3. There is an unlighted unmanned wreck which remains afloat moving involuntarily.
4. Prepare the combinated ladder.
5. I decline your help.
6. The depth of my ship's bottom under the waterline is 6.85 metres fore and aft.
7. Take the lines of the tug through the heavy steel fitting equipped with rollers at the aft end of forecastle. 8. Wreck buoy not present, vessel not obeying traffic regulations, vessel restricted in her ability to manoeuvre by the nature of her work approaching St Nicholas Strait, visibility 1-mile, new wreck, oil rig spillage, hurricane, ship that acts as a lighthouse without lights.
9. The black buoy with one or more broad horizontal red bands is not in charted position
10. Collision at the circular area within definite limits in which traffic moves in a counter-clockwise direction.
11. Tell me what the point over which it is safe for me to hover is.
12. Is there any other movement of shipping?
13. I have completed the action that led me to be aground.
14. Pronóstico de las 00:00 del 14 de febrero. Río de la Plata: Vientos regulares a moderados del noroeste, rotando al norte. Cielo algo a parcialmente nublado. Probabilidad de lloviznas aisladas. Bancos de niebla hacia el atardecer. Visibilidad regular
15. Mooring scheme: 4-2-3 forward; 5-3-4 aft.
    A. 2-2-2 forward.
    B. 5-0-4 aft.
    C. 2-0-0 forward.
    D. 1-01 aft
    E. 1-0-0 forward.
    F. 0-0-1 aft.
16. You will soon be in a dangerous position.
17. Make a bold alteration of course so that I can distinguish you.
18. I have four dead people on board.
19. There is floating ice. (Message to all ships in the area.)
20. There is a procedure of rescuing a ship.
21. My height in metres from the highest point of the vessel to the vessel's bottom is 32.

Give the following messages. Do not open any communication. You speak for Utopia except at 01, 06 b, 08, 11, 12 b, 14, 18, 21, 22, 24, 27.

1) Securite, Securite, Securite. This is Coast Guard Radio. There is a strong swell in area XX./ Utopia. This is Coast Guard

Radio. Warning. There is a strong swell in area XX. Over.

2) Attention, Attention, Attention all vessels. This is Coast Guard Radio. Routeing for area XX will change at 0-0-0-0 hours on February 15./ Utopia. This is Coast Guard Radio. Information. Routeing for area XX will change at 0-0-0-0 hours on February 15. Over.
