A- Translate the following weather report.

Pronóstico de las 00:00 del 29 de octubre
Río de la Plata: Vientos regulares a moderados del noroeste, rotando al norte. Cielo algo a parcialmente nublado. Probabilidad de lloviznas aisladas. Bancos de niebla hacia el amanecer. Visibilidad regular.

B- Answer the following questions.

1) You are further away from the river mouth than Avonport. What is your position?
2) How is a single buoy carrying pipe-lines for large tankers called?
3) When you deliberately break the anchor chain by disconnecting a shackle, or by letting go all the cable, what do you do?

C- Write the following radio communication.

Newharbour. This is Gargantua. My draught exceeds the depth of water.
Gargantua. This is Newharbour. Understood. The tide is flooding.
Newharbour. This is Utopia. Channel six. Over.
Newharbour. This is Utopia. Channel six. Over.
Utopia. This is Newharbour. Vessel Gargantua is aground in position 180 degrees, one cable from Fish Haven. Navigation is closed in area one mile away from the river mouth, one mile towards the river mouth from Fish Haven. It is dangerous to approach Gargantua. Anchor position one mile upstream from Fish Haven has been given to you.
Newharbour Radio. This is Gargantua. I don't need your help any more. Is the water deep enough? Over.
Utopia. This is Newharbour. The navigable part of the waterway is clear.
Newharbour. This is Utopia. I am picking up the anchor until it is stowed in position in the hawsepipe. Is the pilot boat on station?
Utopia. This is Newharbour. Yes. Prepare the pilot ladder on the sheltered side of the ship.
Newharbour Pilot Station. This is Utopia. I am not at anchor, or made fast to the shore, or aground. My destination is Avon. My ETA at pilot is two two zero zero hours, local time. My draught forward is six point five metres, and my draught aft is seven point two metres. I have an inclination to port of one degree.
Utopia. This is Newharbour Pilot. Ok. Wait on channel sixteen.
Attention all vessels. This is Newharbour. Navigational information follows on channel twelve. Visibility is two thousand metres. Visibility is expected to decrease to one thousand metres in one hour. Vessels must navigate with caution.
Mayday, Mayday, Mayday, all vessels. This is Newharbour. Following received from yacht Iolande. I need help. I am sinking. My position is four miles, 160 degrees from Barwater Pier. No, 162 degrees.
Utopia. This is Newharbour. Act as the command vessel.
