Imagine you are on board Utopia in charge of all communications. Open them when necessary and answer them even if it is not asked to. Utopia is made fast to the shore with a mooring scheme of 4-2-3 forward and 3-2-3 aft and has six shackles in the water of the left chain. She is about to leave Newharbour. The Pilot is on board.

1) You ask for permission to initiate navigation.
2) The Pilot wants to know if the anchor chain is calling at 10 o'clock and the way it is working.
3) He wants the 1st Officer to haul on board all the lines except the ones leading aft.
4) He wants the 2nd Officer to leave a mooring scheme of 1-1-1.
5) He wants the boatswain to engage the windlass and to reduce the length of the chain to three shackles.
6) He wants the 1st Officer to bring the towing lines to the mechanical barrel and to take them the bitts.
7) He wants both stations to cast off all lines.
8) He wants the boatswain to pick up the anchor until it is in the hawsepipe.
9) You say you are not at anchor, or aground, or made fast to the shore, your destination, your depth under the waterline is deeper aft, that you intend to start navigation and ask if there are any obstructions to enter the navigable part of the waterway.

You proceed towards the river mouth.

10) The Pilot wants the 1st Officer to pull on board the towing lines.
11) He wants the boatswain to prepare the combination ladder.
12) The Pilot Boat wants you to give her shelter from the wind and to keep course and speed.

The Pilot disembarks and the vessel proceeding in the same direction sends a weak distress message.

13) The Coast Guard rebroadcasts it.
14) You want to know the position of that vessel.
15) The Coast Guard repeats it, makes a mistake but corrects it.
16) You want to know if she is in the way of other traffic.
17) As she is, the Coast Guard gives you a place to anchor.
18) The Coast Guard says that no ships can move in the area.

After salvage operations, you resume navigation.

19) The Coast Guard sends a situation report (~~a sudden increase in wind force, a vessel restricted in her ability to manoeuvre, a buoy not in charted position, a vessel not obeying traffic regulations, poor visibility,~~ a wreck buoy).
20) You tell the Coast Guard that your radar is not working and give your possible position.

1)-Newharbour Port Control, Newharbour Port Control, Newharbour Port Control. This is Utopia, Utopia, Utopia. Over.
- Utopia, Utopia, Utopia. This is Newharbour Port Control, Newharbour Port Control, Newharbour Port Control. Over.
- Newharbour Port Control. This is Utopia.
Question. Do I have permission to get underway? Over.
- Utopia. This is Newharbour Port Control.
Answer. Yes, you have permission to get underway. Over.

2)- Utopia Forward Station. This is Utopia Bridge.
Is the cable leading before the port beam?
How is the cable I rowing? Over.
- Utopia Bridge. This is Utopia Forward Station.
Yes, the cable is leading before the port beam.
The cable is frobing slack. Over.

3)- Utopia Forward Station. This is Utopia Bridge.
Single up forward to forward springs. Over.
- Utopia Bridge. This is Utopia Forward Station.
I will single up forward to forward springs. Over.
- Utopia Bridge. This is Utopia Forward Station.
I am singled up forward. Over.

4)- Utopia Aft Station. This is Utopia Bridge.
Single up aft. Over.
- Utopia Bridge. This is Utopia Aft Station.
I will single up aft. Over.
- Utopia Bridge. This is Utopia Aft Station.
I am singed up aft. Over.

5)- Utopia Forward Station. This is Utopia Bridge.
Put the windloss in gear.
Shorten your cable to three shackles. Over.
- Utopia Bridge. This is Utopia Forward Station.
I will shorten my cable to three shackles. Over.

6)- Utopia Forward Station. This is Utopia Bridge.
Take tug's forward towing lines and make fast. Over.

This is Coast Guard Radio.
Cardiff area is closed to navigate. Over.

19) - Attention, Attention, Attention All vessels. This is Coast Guard Radio. Situation Report follows on Channel 1-2. Over.
- Attention, Attention, Attention All vessels.
This is Coast Guard Radio. Situation Report.
Part one: There is a hampered vessel in position 0-4-5 degrees, one mile from Aronport.
There is a vessel not complying with traffic regulations in position 1-1-0 degrees, two miles from Cardiff.
Part two: There is a squall in area Aronport.
Visibility at Cardiff area is one mile.
Part three: There is an ~~unlit derelict~~ buoy off - station in position 4-0 degrees 0-0 minutes North, 0-0-8 degrees 0-2 minutes West.
There is an ~~missing~~ isolated danger buoy in position 0-5-5 degrees, three miles from Cardiff. Over.

20) - Coast Guard Radio. This is Utopia.
Information. My radar is inoperative.
My estimated position is 4-4 degrees 0-0 minutes North, 1-0-0 degrees 2-2 minutes West. Over.
21) - Utopia. This is Coast Guard Radio.
Information. Message understood.
Instruction. Alter your course for identification. Over
- Coast Guard Radio. This is Utopia.
Intention - I will alter my course for identification. Over.

22) - Utopia. This is Coast Guard Radio.
Information. I have located you in position 4-5 degrees 1-0 minutes North, 1-0-0 degrees 2-3 minutes West. Over
Warning. You are crossing fairway at Fannet Head. Over
23) - Coast Guard Radio. This is Utopia.
Information. Message understood.
Intention. I will proceed at reduce speed. Over and Out.
