Imagine you are on board Utopia in charge of all radio communications. Open the radio communication whenever it is necessary. You have three shackles of the starboard chain in the water. You are about to leave the harbour.

… Port Control, … Port Control, … Port Control. This is Utopia, Utopia, Utopia. Over.
Utopia, Utopia, Utopia. This is … Port Control, … Port Control, … Port Control. Over.

1) You ask the Port Control for permission to initiate navigation.
… Port Control. This is Utopia. Question. Do I have permission to get underway? Over.

2) The Port Control allows you to proceed.
Utopia. This is …. Port Control. Answer. Yes, you have permission to get underway. Over.

3) The Captain wants the Boatswain to clutch the windlass and reduce the length of the chain to one shackle.
Utopia Forward Station. This is Utopia Bridge. Put the windlass in gear. Shorten the cable to one shackle. Over.

4) The Boatswain answers he is going to do it.
Utopia Bridge. This is Utopia Forward Station. I will shorten the cable to one shackle. Over.

5) The Captain wants the 1st Officer to pull on board the lines leading at right angles to the center line from the head to the shore.
Utopia Forward Station. This is Utopia Bridge. Let go forward breast lines. Over.

6) The 1st Officer answers he is going to do it.
Utopia Bridge. This is Utopia Forward Station. I will let go forward breast lines. Over.

7) The Captain wants the 2nd Officer to haul on board all the lines except the ones leading aft from the stern to the shore.

Utopia Aft Station. This is Utopia Bridge. Single up aft to stern lines. Over.

8) The 2nd Officer answers he has done it.

Utopia Bridge. This is Utopia Aft Station. I am singled up aft. Over.

9) The Captain wants to know if the anchor chain is leading at 2 o'clock and the way it is working.

Utopia Forward Station. This is Utopia Bridge. Is the cable leading before the starboard beam? How is the cable growing? Over.

10) The 1st Officer answers.

Utopia Bridge. This is Utopia Forward Station. Yes, the cable is leading before the starboard beam. The cable is growing slack. Over.

11) The Captain wants to cast off all lines at the head and at the stern.

Utopia Forward Station. Utopia Aft Station. This is Utopia Bridge. Let go fore and aft. Over.

12) He wants to pick up the anchor until it is stowed in position in the hawsepipe.

Utopia Forward Station. This is Utopia Bridge. Heave up anchor until it is home. Over.

13) The manoeuvring stations inform that the lines are on board and the 1st Officer that the anchor is stowed.

Utopia Bridge. This is Utopia Aft Station. I am let go aft. Over.

Utopia Bridge. This is Utopia Forward Station. I am let go forward. The anchor is home. Over.

14) You tell the Port Control that the stone-built structure at which you have lied alongside is clear, that you are not anchored, or made fast to the shore, or aground, your destination, that your depth

under the waterline is deeper forward and that you intend to start navigation.

… Port Control. This is Utopia. Information. The quay is clear. I am underway. My destination is … . I am trimmed by the head. Intention. I will get underway. Over.

15) The Port Control accepts your information and gives you the weather forecast (variations in wind, sky, precipitation, visibility) and tells you that a vessel is sailing towards the river mouth and that a buoy indicating the position of an isolated hazard has no lights.

Utopia. This is … Port Control. Information. Message understood. Situation Report.

Part One: There is an outbound vessel.

Part Two: Fresh to moderate breeze from north. Fair sky to partly cloudy. Possible isolated drizzle. Moderate visibility.

Part Three: There is an isolated danger buoy unlit in position … . Over.

16) You ask the Port Control if there are any obstructions for you to enter the navigable part of the waterway.

… Port Control. This is Utopia. Question. Is it clear for me to enter the fairway? Over.

17) The Port Control says there aren't.

Utopia. This is … Port Control. Answer. Yes, it is clear for you to enter the fairway. Over and out.

You proceed towards the river mouth and the vessel ahead proceeding in the same direction sends a distress message.

18) She says that a man has fallen to the water and expresses her necessity of assistance to look for the man and of a helicopter with doctor.

Pan Pan, Pan Pan, Pan Pan. This is … . I have lost a person overboard in position … . I require assistance with search and rescue operations and a helicopter with doctor. Over.

19) The Coast Guard Radio answers the assistance is on its way.

… . This is Coast Guard Radio. The helicopter is coming to your assistance. Over and out.
