A) Unmoor Utopia giving 3 different orders to each station. Her mooring scheme is 5-3-4 forward, 4-2-3 aft.

B) Give a situation report with two items for each part.

C) Weather forecast for today for Río de La Plata river.

D) Correct the following messages or give them in the correct standard way.

1- Newharbour Pilot Station. This is Utopia. I am not at anchor, or made fast to the shore, or aground. I am going to Avonport. I expect to arrive at 7 p.m. My draught is greater forward than aft. I have an inclination of three degrees.

2- Attention all vessels. This is Newharbour. Navigational information follows on channel twelve. Visibility is reduced by water droplets in the atmosphere which reduce visibility to less than 1000 metres. Visibility at number one buoy is two thousand metres. Visibility is expected to be less to one thousand metres in one hour. There is a procedure of rescuing cargo in position South side of the fairway at Fish Haven. Vessels must navigate carefully.

3- Utopia. This is Newharbour. It is dangerous to approach Gargantua. You must anchor. Anchor position one mile farther in the inland direction than Fish Haven has been given to you. Anchor north of the navigable part of the waterway.

4- Newharbour. This is Gargantua. My draught exceeds the depth of water over solid bottom.

Attention all vessels. This is Newharbour. Vessel Gargantua cannot move in position one cable, 180 degrees from Fish Haven number one buoy. No ships can move in the area one mile towards the river mouth, one mile away from the river mouth from Fish Haven.

5) Utopia. This is Newharbour. Rig the combination ladder on the sheltered side of the vessel.

6) Mayday, Mayday, Mayday all vessels. This is South Point Radio. Following received from yacht Iolande. I need assistance. I am sinking. My position is 160 degrees, four miles from Barwater Pier, no, three miles from Barwater Pier.

7) Iolande. This is Newharbour. I cannot understand your language. Please, use the Standard Marine Vocabulary.

8) Helicopter. This is Utopia. Present relative wind direction and speed is 030° on port bow, 35 knots.

9) Utopia. This is South Point. What is the visibility at your position? What is the wind direction and force?

South Point. This is Utopia.

10) Newharbour. This is Utopia. My radar is not working. Is visibility expected to change? Is it clear for me to enter traffic area within definite limits inside which one-way traffic is established?

Utopia. This is Newharbour. You must alter course for identification.

Newharbour. This is Utopia. Done.

11) Newharbour. This is Utopia. I am steaming along a recommended route between two positions.

Año	Firma del Cadete	Hoja
20_____		___ de ___

12) Utopia. This is Newharbour. You are running into danger. Submerged wreck ahead of you. It is dangerous to remain on your present course. It will be better if you alter course to starboard.

13) Newharbour. This is Utopia. My anchor has its own cable twisted around it.

14) All vessels. This is Utopia. I have lost a man overboard in position 80º South and 32º East. I require help with search and rescue from all ships in the area.
